

22. SO - SAN TUL

E' lo pseudonimo del grande re Choi Hong Ung (1520-1604) durante la dinastia Yi. I 72 movimenti si riferiscono ai suoi anni quando organizzò un gruppo di monaci soldati con l'aiuto del suo pupillo Sa Myung Dang. I monaci soldati aiutarono a reprimere i pirati giapponesi che invasero quasi tutta la penisola coreana nel 1592
